SPEAKERS

Theresa Reed, Leslie Tagorda

Leslie Tagorda 00:06

All right everyone. We are done with mercury retrograde. We are now in the shadow zone but Mercury is finally moving direct. And to celebrate I have been saving this very special interview for just the right time for mercury to go forward and today I'm going to be chatting with the Oji of Tarot and astrology and all things spiritual entrepreneurship to Risa Reed, also known as the Tarot lady. Aloha. Welcome to the savvy luminary and astrology podcast for entrepreneurs. I'm your host, Leslie Tagorda and Aquarius boss woman, a brand designer and business astrologer. I help visionary spiritual entrepreneurs and impact makers just like you reach your highest potential and become the luminaries you are star charted to be. Oh my gosh, I am so excited to bring you this special interview with Theresa Reid. You know, I've met her a few years back I first got introduced to her work because she was a guest in a business mastermind where she was doing card readings and I was so impressed with her like, no frills, no BS way that she just kind of like interpreted her tarot cards just like the sheer wisdom that she shared with her intuitive readings. I mean, Teresa is just just this a wonderful powerhouse of a spiritual entrepreneur who walks her talk who shares her knowledge. And in this episode, we're gonna just talk about how she's been able to use astrology and use Tarot in her business, how she's able to share that information, how she really like what it like ignited her to start a business when nobody else was doing this and how she really started to show up every day to share this wisdom. This really amazing conversation. I felt like I was talking to a best friend. And you know, we did a little mini reading and I can't wait to share this with you, as we talk to to received in this special episode. Hi, Teresa. Hi, Leslie,

Theresa Reed 02:27

thank you so much for having me. I am so happy to talk to you today.

Leslie Tagorda 02:31

Oh my gosh, me too. If you don't already know who Theresa reid is, you definitely need to follow her on Instagram of the Tarot lady where she is dropping so much wisdom, everything about the stars, and Tarot and all of that. I went you know, I would love to know kind of some of that background like you show up every single morning. What's that about?

Theresa Reed 02:57

Well, consistency is very important to me. And I've I like to say now You and I both are astrology people, I've got three planets in Virgo. I am a very consistent person, I am a very reliable person. And so when I commit to doing something I always follow through, even if it feels like oh my god, this is every single day I just simply follow through. And it's really comes from a good work ethic. My father, also Virgo very, very Virgo. instilled in every one of us that work is really important. And you want to show up and you want to do a good job. And you always want to show up. And so growing up with that kind of a work ethic, it's actually second nature to me, I don't even think twice about it. I just simply do the work.

Leslie Tagorda 03:41

Do you find that you direct that kind of consistency in certain places? I know you have Virgo and we jumped to die, we dove right into the deep end, right like I'm looking at your chart, I always love to look at people's charts when we're talking because I see these little things just light up, right. And so your three Virgo planets, Uranus, Pluto and Mars all in the 11th house with kind of like bigger groups and bigger networks and you know that commitment in your in building your groups on Instagram on social media on your podcasts? Do you find it directed mostly your consistency directed there? Do you find it directing in like all parts of your life?

Theresa Reed 04:23

It directs in all parts of my life. I'm again, I'm extremely reliable. I am a very electricity reliable Roger. If I say I'm going to be there, I'm going to be there. If I say I'm going to do something, I do it. And you know, that's one thing that my children will also tell you that they always know when mom says she's going to do something. She does it. So it shows

up in every single area of my life. I mean, sometimes people that I haven't talked to in like a million years, they'll be like, Oh my god, you're still the same phone number. And we'll pick up with right where we left off. Even if we haven't talked in 10 years. I'm very, very consistent. I'm very grateful. It

L Leslie Tagorda 05:01

that's amazing because you know, if somebody were just to who is just getting into astrology and they would look into your chart and they would see all of that pile up of Gemini energy, right? They'd be like, well, I can't make up their mind. Geminis can't do this and like, it's so it's such a bowl right? Like the judgment that Gemini gets.

T Theresa Reed 05:17

Gemini gets a bad rap. You know what, Leslie I saw on Twitter A while back and I was shocked. They said what is the most hated sign? And people were piling on chairman. I'm like, What? We are so fun, where you fall, we are witty, we we never run out of things to talk about. We're always learning new things we know about every current event, and Geminis are awesome. But the shadow side is You and I both know, every side, every sign I will say has a high vibe and a low vibe. And Gemini can be flaky. And when I was younger, I was much flakier, I was more impulsive, and I knew at a certain point that that wasn't doing me any favors. So I knew I had to like, tap into that Virgo nature, get more pragmatic. And stop goofing off. And once I stopped doing that, well, then all the magic came together for me.

L Leslie Tagorda 06:06

Yeah, so that's it such great, great question, because that I was really curious about when you've been showing up, like making that commitment. What changes like what have been the results, because I mean, I see it just, you know, from like, you've been doing it for a while you've been you were one of the first people, Tarot readers, first people to really go into the spiritual entrepreneurship, but not just that result of what's been that result of just everyday, everyday everyday.

T Theresa Reed 06:35

Well, you know, everything, when you are practice, let's look at it like a habit. If you were doing a certain habit or practicing something every day, maybe you're practicing learning the musical instrument, you're not going to get good right off the jump, you have to do

everyday practice. And that really applies to everything in our life. I mean, we get up, we brush our teeth without thinking about it. Why it is a habit that's been ingrained in us. So when I look at doing my work, I don't look at it, like oh my God, I've got to work. It's like, this is something it needs to be done. Just like brushing my teeth or playing the guitar. If I want to get good at my work, if I want to serve people properly, I have to have those good habits. And so I tend to look at it like that. It's routine. It's habit. It's just something I do. And you know, if there's something in my life that at a point becomes like this doesn't feel right anymore. I also don't have a problem walking away from something.

L Leslie Tagorda 07:25

Yeah, like you've grown out of it, right? Like the boundary is absolutely,

T Theresa Reed 07:28

absolutely. And I will say again, the Gemini nature, I do love to scatter my forces. So I have to rein that in. So I can remain reliable. I don't want to be all over the place, which is one of the things I have to work really hard to like, dial back on.

L Leslie Tagorda 07:45

Yes. Oh my gosh, I know you don't know me very well. But if you know the listeners here who've been following me for a while, in Episode 51, I released at the very tail end of Capricorn season, and it was really about success isn't about talent. Success is about commitment.

T Theresa Reed 08:02

Yeah, right.

L Leslie Tagorda 08:04

That caveat born Virgo to and Saturn and you know your Saturn in Pisces, which is like, Oh, well look at how Teresa is utilizing her Saturn in Pisces. It's just like, you focus with Mars right there across your natal chart. And it's like this wonderful thing about, hey, you don't have to be the most talented, you don't have to be the prettiest, you don't have to be the best, you just have to show up consistently,

Theresa Reed 08:29

that is really, really important. And you know, every once in a while I'll get people showing up in my world that they assume there's a magic bullet, like somehow I'm lucky or it's a magic bullet, or I've been handed some kind of gifts. And I will say, you know, I caught on to Tarot and astrology very young, I got good at it very young. I mean, I seem to have a real knack for it. And I do have a lot of privilege because of the color of my skin. And I'm really quite aware of that. And I'm able bodied. So there are things that are on my side that make it easier for me to succeed. But it's still there's not a magic bullet. I have to study, I still have to study, I have to show up, I have to do the work. There's no getting around that there is no getting around that it doesn't matter about those quote unquote, lucky breaks, you still have to go and do the work. And when people say well, you know, how does it How can I make this happen quickly? And it's like, I can't tell you how to do that. Because I've been at my career for 30 years. Yeah.

Leslie Tagorda 09:29

Well, I love how you actually brought you bring those things up, you bring about like the privilege, you recognize your privilege, you recognize your hard work, you recognize all of these things. And I also want to reflect that back on you. What I see you doing in your work is I see you sharing your platform, and I see you empowering others in like, you know when I shared my books with you, you're like, Oh my gosh, yes, please send them on. And not only did you read them and receive them, but you share them on your platform. And that's true leadership especially as we're moving into the Aquarian Age, which, to me is about shared social equity.

Theresa Reed 10:06

Yes, right, everybody needs to get a seat at the table. But also, that's also the high vibe of a Gemini as in a business, the high vibe of Gemini and business is sharing information. And you know, sometimes people don't want to share other people's information, because they assume somehow that's going to impact them in a negative way. Like, it's going to take work away from them. I'm like, Listen, there are billions of people in the world, we've got plenty of work to share around. And I'm one of those people when I get excited about something. And by the way, your books are so so good. When I get excited, it's a no brainer. I'm like, Oh, my God, I got to tell everybody about this. And I've always been like that. I've always been that big mouth kid who got excited about this band or something like that. And I want people to know, I love sharing information. Information Sharing is one of my favorite favorite things in the world. So I'm also having people know, what I'm reading, what programs they should sign up for what things might be interesting, or

maybe the news stories that I've been reading and find fascinating, because I mean, that's what I love to do I want to share.

L Leslie Tagorda 11:08

Yes, I think that's why I love you so much. We have a lot of serendipitous energy, I have Gemini rising with my Saturn in the first house. So like I'm one of these people that's all about committing to and learning how to focus that Gemini energy. So you brought us into this like this perfect question. I'm so curious, because you, you practice so many forms of astrology. And I've heard you talk about political astrology, which I definitely want to get into in a little bit. But how do you use astrology in your business? And when did you first start bringing astrology into your business?

T Theresa Reed 11:42

Well, like most people, when I first started studying astrology, and I started studying when I was 15, so that's 40 years ago, it was a trying to figure out who I am, you know? And that was always very interested, well, who am I? Why don't I fit in with this family? You know, why am I so different from the people I've grown up with? And astrology started really answering a lot of questions about that. And then as I got a little bit older, then it became a tool for choosing partners, like, is a person going to be groovy? Are we on the same wavelength? Are we going to have fun together? You know, so that it became that and it remained like mostly about kind of understanding human nature for quite some time. And then many, many years ago, and I'd been in business again, for a long time, I was dealing with some business stuff, and I thought, you know, these planets, I'm always watching them for other things. I wonder what would happen if I started applying this to my business. And so I started following, especially the moon very, very closely with my business. And I started aligning certain things with the moon, certain activities that I would do during the moon, I paid attention to Mercury Retrograde, Mars retrograde, I said, Let's not launch, then, let's work on the computers, let's back things up. I made lots of mistakes along the way as I started really following it. But as soon as I started getting the hang of it and watching those cycles, what a lot of magic unfolded in my business, I also learned to look at my chart and understand my strengths and weaknesses in my business. You know, like, like, for example, you know, one of the funny things is I'm extremely introverted, which nobody would ever believe in a million years. I'm extremely introvert, I love being alone. I love being by myself. And my astrology chart, I've got a Leo midheaven, I'm like, you've got to be on a stage, whether you like it or not have to do it, you know. So learning even things like that. And that was very good for my business, getting on stages. I'm great with a mic in my hand. But it's not what I want to do. But I know it's what I should be doing. And so it's all these things I started incorporating into my business. And my business

improved dramatically. When you understand how cycles work and how you how your own astrological natal chart shows how you operate? Well, you can number one show up in your business as the best version of you, and also learning how to work with those cycles. Well, now you have another, you have another layer of planning that you can do for your business that is going to be in alignment for the highest good of you in your business. You know, last year the plants were so gnarly. I knew I knew there were gonna be some. There were gonna be some rough waters, but because I knew it. While everybody else was freaking out. I'm like, yeah, Mars retrograde, Venus retrograde, Mercury Retrograde Saturn Pluto conjunct. Here. I didn't have a problem because I already knew it was coming. Yeah. So I think it's very helpful. Yeah, I

L Leslie Tagorda 14:35

think you know, 2020 for like all of the losses there are so many gains for so many people like it really. It really shook things up in a way that just kind of like leveled the playing field a little bit. I love that. I also love hearing how you kind of how you use astrology because I think that's how most of us fall into astrology. Right? Like, like this self curiosity then it's like okay, Am I gonna jive with that person?

T Theresa Reed 15:02

Yes.

L Leslie Tagorda 15:03

But then when you really start to use astrology in this like really empowering way, it's more about self actualization. Yes, like learning those vibrations, and then keep like this endless cycle of elevating and elevating and elevating it. And that's what I love doing for people with just uncovering their charts. And then yes, of course, working with the rhythm of the energy. So we're not working against the energies that we get to play with.

T Theresa Reed 15:30

Right, which is often what people do. I mean, I get into my own business, too. I hit from the stage, I didn't want to get on stage that's going against my Leo midheaven. And when I was when I was doing my business, back in the early part of my business, it was more kind of like winging it. And then when I started really following the planets, then I got very strategic. I got super strategic. And once again, the magic happens. People say, Well, you've been in business 30 years, you know, what's your sauce? And I'm like, I work hard

and astrology. Yes, it works.

L Leslie Tagorda 16:05

I'm curious if anything is specifically happened for you just thinking you know, to thinking back like your Uranus, opposite Uranus. Like I feel like after your first Saturn retro of Saturn return like that, you're that midlife. Uranus, opposite. Uranus is such this breakthrough thing. And I'm curious if you can remember back to them, like how your business might have changed after that.

T Theresa Reed 16:27

Transit good. The biggest thing, what was happening at the time was dealing with a lot of elder care. And so suddenly, I had to get hardcore with my schedule. And that was the biggest thing, I tended to be a little bit more looser with the schedule. But that urania stuff, and dealing with elder care, that had to all change and shift. And also, I had to get really good with technology. And technology, I was, in my opinion, I was late to the game. I resisted technology. I remember my kids had computers, their father had computers, and he was into us. And now I'm not interested in it. I'll use this typewriter, I don't. I mean, which was ridiculous. And my children bought me, they gave me a soldier's computer said, Mom, you've got to get with the program, knock this off. And I'm like, you're right, I don't want to be the lady standing at the checkout counter, not knowing how to work that thing. So I really dove into technology, and I got good at it. I got good at it, because I really put myself into it. And as I was moving through all that Uranus stuff, I mean, I just kept studying and learning and learning about websites and all of that. So I think that's also the big change. I really became more tech savvy.

L Leslie Tagorda 17:43

Yeah, I think we'll all that Gemini energy helps too. And then you know, a smattering of Aquarius, zero degrees and you're at your IC like that. You know, like I love that part. So, so what you know what made you decide to start a business all those years ago, like further other Tarot businesses, astrology, like businesses, not just somebody giving, you know, readings on a back closet or something like that.

T Theresa Reed 18:11

Well, you know, I, if somebody would have told me that I was going to grow up and be a tarot reader or an author, I would have, I would have laughed at them. I my goal was to

be a makeup artist, and go to New York and hang out with all kinds of musicians, which I never became a makeup artist, I did hang out with all kinds of musicians, which is I there like catnip for me. But the makeup artist thing didn't happen. And there was a while I was kind of like drifting a little bit trying to figure out what am I going to do with myself? What am I going to do? And I've been doing terror with that part, at that point in my life, and I had a job in an office that I moved back to take care of my parents, and you know, suddenly had to figure some things out. And at the time, I just took a job bartending because I thought, well, you know, I need something. And I don't want to be totally committed. And I was a lousy bartender, but I ended up bringing those tarot cards to work because they put me on the worst shift because I was the worst bartender. But suddenly, what ended up happening is, so many people started talking about those tarot card readings, that I ended up with the most popular day that my days were packed, and I made so much good money off the tips for bringing those cards. You know what the cards that I'm like, wow, maybe there's something to it. And people were always saying, Listen, I want a full reading, I will pay you. And one day I was talking to the boss, I said, you know, I'm thinking I might, I might need to turn this into a business. And he goes, Oh, yeah, yeah, you should do that. And he went behind my back and told everybody, I would fail. He said, nobody's gonna pay for that. Now there's one thing I grew up with brothers, and I'm in between two boys. And I know one thing with brothers, they're very competitive. And I was always very competitive with my brother. So when a man tells me that I'm going to fail, then you bet I am not going to fail. So I quit my job. And that was it. And I just started doing it and those clients that would come into the bar Were booking readings with me. And it was all word of mouth because this is back in the this is back in the early 90s. There was no internet. And so for businesses, there were a couple random Tarot readers here in the city where I live. And we all became friends and all that. But there was no internet. It was it was a weird time, and it was still very much, there was a stigma to it. People thought it was devilish or negative. And, you know, my goal was to educate the public that it's not negative. And so it was a very, very humble and very rough and tumble beginning back in the wild, wild west of tarot reading, before it became so popular. And I think the internet for that.

L

Leslie Tagorda 20:40

Two thing is kind of sprung up. The first thing was like, I'm curious about you know, that what that bartender asked, like, you know how he started talking behind your back and saying that you were going to fail. That seems to be like a theme, maybe in your life, because you have this super powerful t square, that is always like this outside action that you're like, basically sticking your middle finger to and say, EFF this, I'm gonna do this anyway. And then you like, you succeed by leaps and bounds. Is that true for you?

Theresa Reed 21:10

Yes. It's always been that way. I was very rebellious as a child. I've always been like one who says, nope, nope, not gonna do it. And, you know, I don't like being told what to do. I don't like being controlled. And I especially don't like it when someone tells me I'm gonna fail. Then it's like, oh, no, no, no, no, that's not how this works. I'm gonna succeed. And this is something I want to fail in. You know, there's certain things I don't care if I if I ever win a sports because I hate sports. But if I did want to win it, believe me, I would dedicate myself and I would win.

Leslie Tagorda 21:42

Oh, I, I believe that just like, if anybody was, you know, looking at Teresa's turn is just like this, this really tight t square. Like, these energies. It's like, don't mess around with.

Theresa Reed 21:56

Yeah, so funny that you say that too. Because sometimes when people look at my astrology chart, they're like, Oh, this is a terrible chart. Everything was at a T square. I'm like, No, no, no, no, it's how you work with stuff that matters. This can be a terrible messy thing. It's a mutable, a massive mutable t square, it can be a terrible thing. But it can be a catalyst, it can be the fuel that lights that fire. And you can take that rebellious energy, and you can turn it into something where you're carving out your own individual path. So what are you going to do? Are you this scatter your forces to the winds? Or are you going to look at this and say, Oh, hell no, I'm going to do something with this. And that's what I chose that again the choice like right like deciding to commit some things to something and choosing to express these energies at this highest level. Because you know, earlier we're talking about Gemini being the most judged Scorpio also being the most challenged, which all you have your Gemini energy in the eighth house. You know, this, this double theme there. But it's like when I work with clients, you know, you pour things sometimes people come in and some astrologer or some Tarot person at one time told them like, oh, you're never gonna have success because you have this thing in your chart. And it's like,

Leslie Tagorda 23:10

I call bull. I can't count on that. Because, you know, this is fuel anytime somebody has all of these squares. And all of these opposition's that's creative juice to work with, right? People have a lot of trines like, I have a grand Trine and pretty much went totally wasted for like, the first half of my life because things were easy. And I didn't have to work for

anything. So I didn't commit to anything. And I got nowhere fast. Right?

T

Theresa Reed 23:39

I mean, they can make you lazy, good aspects. Not that there's anything wrong with that, you know, sometimes if you can coast, why not? But then at some point, we do feel like well, this is inertia, though. Maybe I do need to challenge myself. Exactly.

L

Leslie Tagorda 23:53

So the second thing that I wanted to talk to you that kind of stumped for the other conversation is, you've been in this industry for so long, and you know how people hang on to every single word. Right? And then everybody would be like, vying to get their question read. And then you know, you'd pull a card for them and you'd answer this question and maybe he would say like two sentences, but like, everybody remembered exactly word for word for word what you said, right? There's like power in that. Words are powerful words mean something? Yes. Oh, my gosh, I feel like I'm, I'm speaking to like a mirror. Sometimes. I see that all the time.

T

Theresa Reed 24:34

And you know, people don't think that in a lot of people in this industry. Don't consider the impact of their words. Like when you're talking about clients coming to you and feeling disempowered. I mean that that reader did a disservice. Now listen, if somebody was doing something really stupid and destructive, of course, I'm the first person to say Listen, you need to be careful, this doesn't feel like it's a good path for you. Let's look and see if there's an alternate route to really make sure that you are going to the highest potential and moving past these obstacles, I mean, that's where you want to work with it. And I've had read readings too, from people who use very destructive words like can't, or won't, or this is bad or, and it's like, Don't do that. Don't do that. Unless you see somebody doing something dangerous. You have to look as a reader, you have great responsibility to look at. Let's look at the potential. Let's look at the the problems and let's find a strategy. Let's get you moving towards your best thing. I am a firm believer that everybody has an opportunity to make it in this world. Everybody, I never look at someone's chart, or at a human and say, well, they're screwed. I don't do that. Because it's like, Okay, well, maybe this is a little messy. Let's, here's, here's my vertical. Say, let's clear this up. Let's find the best route. Let's do this. We've got this. And I think if readers approach that perspective, you're going to do far more to help people than tell them that well, you got a messed up chart that does nothing to help anybody.

L Leslie Tagorda 26:00

Yes. So for all of the listeners out here, if you've ever had somebody give you a reading that told you something like Doomsday, just flush that, right? That's not reality.

T Theresa Reed 26:13

Unless it makes again, unless you are in a situation that really isn't healthy for you. Because the reader should always be focusing on what is for the highest good of this person, not what is going to make me look like some Boogie Boogie accurate tarot reader or astrologer. But what is for the highest good of this person? Because ultimately, what is this work about? It is about service. Yes, it's period it is service. And again, you do not serve someone by shaming them, by making them feel like it's hopeless, or by telling them what they want to hear either. I mean, that's the other bad thing. You've got to really be honest and earnest. And every time you do that reading, it's never about you. It's always about what is for the highest good, what is going to inspire what is going to help this person to keep reaching for those goals, but also be smart about it.

L Leslie Tagorda 27:00

Yes, see, those chippies kind of like basic golden rules, right, whether or not your Tarot or astrologer or a business consultant, or coach, yeah, like this is about empowering others and helping them go through their blocks and not creating blocks.

T Theresa Reed 27:17

Yes, and sometimes, you know, this work, we can create them when we don't think about how we are choosing those words for people. And, and with astrology and Tarot. I think anybody who's learning this stuff really should be also taking lots of lessons on how to communicate in a compassionate way. Because that really helps people more than you thinking a square means this or the death card means you know, blah, blah, blah, we've got to really look at that from a different angle. Yeah, I'm

L Leslie Tagorda 27:47

glad that you brought that up. Because I noticed that after I took a communications course, I was like, Oh, my readings, I got so much more inquisitive. Just seek these practical tools. I would love to know about you, you know, your day to day and like, what's kind of challenging? What do you love? Like, what does that look like?

Theresa Reed 28:07

Well, I live very much by routine, as you can probably guess, everything is very highly structured. And I have to do that because A, it keeps me on track. I don't like getting off track, I don't like I don't like having a messy calendar. So my calendar, everything is really highly organized. Because I know that I'm going to operate a lot better. And I'm going to show up, then very present, whether I'm writing something whether I'm working with somebody, I want to be 100% present, and the only way I can be present, if it is if I have a very clearly defined schedule. So everything's marked out, everything's on the calendar. I know every Monday is an admin day. It's also the day I clean my office. I know every Tuesday, I might be working with a client or I might be involved with a project and meetings. Wednesday is my day also, for doing interviews like we're doing here today. It's also maybe the day where I might connect with my virtual assistant and talk to her about goals and things that we need to handle in the inbox. I know that wins in it I might be teaching Thursday, I might be working with clients, Friday clients, Saturday, a little bit of clients in writing, and then Sunday is off. But every single day is marked out. And I've also started you know, ending my days earlier, I used to work way too much. Not anymore. Nope. I start ending my days a lot earlier because I want to be able to read books and read more books and learn new things or take a class or whatever. So that's also something I've started doing is scheduling in time off and being rigid about it is like at a certain time. I'm not in the inbox, you can email me all you want. You're not even getting my assistant. So everything is very structured. And that is the secret to how I live my life. It is it sounds rigid, but it works. So and also by the way, my mornings are all was always very similar. Get up take care of the cat And then I also want to make sure I move my body I do some meditation. And then I sit down and I do all my card of the day things in the morning. And then I eat my breakfast, which is usually the same breakfast every day. I wear clothes that are always just a uniform. It's like Garanimals for adult, black pants. black shirt. I'm like Steve Jobs. I don't want to think about it. Put in some red lipstick. And I'm good to go. Yes,

Leslie Tagorda 30:24

but your signature lipstick. I love what you're saying about like, you know, like how you're just like so rigid, but like in a way that gives you all of that freedom and flexibility. I was trying to like hear from your daily routine because sometimes we can even look at our chart right in order to determine our daily routine with like, first house second house third house and it's like, Okay, first house with your Libras like, Who are you connecting with? Oh, you're gonna connect with your kitty cat.

Theresa Reed 30:51

First thing is the cat. Yeah, Libra rising, you know, connection is important. To me. Relationships are everything. And I'm a long term relationship person. Although when I was younger, I was very flaky. I had a lot of fun. But I'm still friends with all the friends who went to high school with I mean, I am in it for them, which is weird. A lot of people I know who are my age are like, wow, you still talk to your high school friends. I'm like, Yeah, why don't you you know, but I love long term I've got clients have been with me for 30 years since the day I opened the door, and they would never go to another reader. And I read for their kids or adults.

Leslie Tagorda 31:27

whiskey on the rocks. Tarot, please. Exactly. I love what you said, like, okay, after I take care of the kitty, then I do my Tarot spreads for myself. There we go Scorpio in the second house.

Theresa Reed 31:41

Yep, yep, yep, I do I pull a card everyday for myself. And also, I put a card up there for the public card of the day, every day.

Leslie Tagorda 31:48

I see that on Instagram and actually have some user questions that I'll ask you. Oh, okay. So I would love to know more about these books that you have. So you don't have the four books and counting. And I will have on the show notes, all of your four books. And I have one of them here. But you know, what's your inspiration and what's next with your books.

Theresa Reed 32:07

So my whole goal with books is always to educate. That's my that's really again, it's about service. I want to take the stigma out of the sacred arts. And also there's another problem with them, that people sometimes think they can't learn it that they think I just can't learn astrology, I'm not smart enough, or Terrell's too hard. And I'm one of those people I've taught many years, I also teach yoga. And I'm like, No, no, no, no, no, you, you just need someone who speaks the language to guide you. And so I like to take these subjects, I like to break them down and make them user friendly, so that everybody can learn how to read or how to understand it, or at least to get the very basics so that they can feel a little

bit more confident and maybe understand what their astrologer or their Tarot readers talking about. So all my inspiration is about educating. Even with my podcasts, it's about educating people. And again, I don't want to take the magic out of it. But I certainly want to take I want to pull back the High Priestess curtain and let people say, Listen, you can do this, I know you can do it. And let's let's do this in a way that's going to make sense for you. That's always the aspiration is to help people know that you've got this, you can do this

L Leslie Tagorda 33:19

100% that's what I love. So for anybody who you know also kind of feels like that I have this one of Teresa's book, astrology for real life. It's really amazing. Like it's it's so it's everything is like spelled out so easy gives you kind of like this beautiful bird's eye view of everything and takes you, you know, you can explore deeper and go into everything. But this is such a great book for just the everyday person who's really looking into astrology. And I think one of the things that I love about this book so much and this makes my Gemini rising happy is just kind of like, I love teaching too. And it's just like that. Yeah, modularity of everything. Yes, breaking everything up into like these little bite sized pieces. Everybody can understand and comprehend.

T Theresa Reed 34:05

As speaking of language. It's not like over people's heads, which sometimes, unfortunately, speaking of words again, a lot of people in Tarot and astrology will talk in this really complicated language. And then people feel they're stupid and they're not dumb. They're just talking about your Huh,

L Leslie Tagorda 34:20

forget that. meeting people where they're at. And then also kind of like grounding the spirituality of it. It's like, with the spirituality isn't out there to just be woowoo the spirituality is here for us to use in a practical basis. Like no tools want to be used, right?

T Theresa Reed 34:36

Yes, absolutely. 1,000%

L Leslie Tagorda 34:39

Yeah. So are so do you have more books coming down the line?

T Theresa Reed 34:45
I have something big coming out next year, or this year that I can't talk about yet. And it's dropping on September 1. And it's going to be very cool. It's it's something that I'm I'm excited about. And it is also going to be very Educational.

L Leslie Tagorda 35:01
Oh my goodness, well, when September rolls around or right before then please let me know. I'd love to have you back on to talk about your book because that will be

T Theresa Reed 35:08
Oh, I can't wait. This one is I'm very excited. I'm excited about every book that I do. But I think this one is going to be very much to my with my heart.

L Leslie Tagorda 35:18
I love that. So, do you have any advice for us with our businesses using astrology or Tarot? What's your best business advice?

T Theresa Reed 35:29
I'm gonna give one tip for each. Okay, so for business, you want to think of your business kind of like the way that farmers think about their farms. You follow the moon, you follow the moon, it's going to tell you when to plant the seeds, how to plant them, and what to be putting your energy into. I'm really big into the moon. And I think that it really works for business. And I know that you know this too, because you've wrote the book on it. daily rituals. I mean, you did I mean, you wrote the book. Got it. So I think your book is really awesome, because it really does explain how to work with the moon for your business. So that's the first tip. So yes, also people, you should probably get Leslie's book to understand exactly what we're talking about. But that really does make a difference. Follow the lunar cycles for your business, and also pull a tarot card every morning. What is my guidance for today? So for example, let's say what if we're asking for guidance for the day, and I've got my tarot deck handy. And let's just say we pull a card, what is my guidance? And we look at this from business perspective. Well, we've got the hangman, the hangman says today, you want to be very patient. You don't want to make snap decisions about your business. You want to give yourself time to get your perspective straight. So today, slow

your roll. Take your time, and then you will get the right perspective. I mean, that could be the guidance for the day, you know. So that is a great way to start out your morning, you're starting to doubt then intentional. And that's again, when you're working with the lunar cycles, and you're pulling a simple card for the day, you're creating an intentional business, you're not just showing up and well, I guess I should do? No, it's telling you exactly how to work with the energy. Yeah, it's

L

Leslie Tagorda 37:09

really interesting to listen to the habits of successful people. And they really do have these different tools for setting intentions. And I love that when your tool, of course, are pulling cards. So actually, I have a question for you about pulling these simple cards. So Brenda, Florida, she wants to know about your simple divination because she has one that she loves. But it uses 15 cards and it takes a long time to do. She says I'd love a simple daily reading and understanding how do you do it? For example, do you shuffle and then spread the cards and pick one, two or three? Or do you shuffle and pull the top card to shuffle and split the deck with your left hand and pick two top cards? It seems like maybe there's too many details that Brenda might be thinking into.

T

Theresa Reed 37:59

She's overthinking it. And when you're over here in this, this happens a lot for people in Tarot and astrology. They will overcomplicate it, and it's like, Listen, simplify it. I mean, sometimes people like will like with astrology, they'll be like, Well, my son is here, but it's conjunct blah, blah, blah. And right now we've got Neptune. And like, yeah, yeah, but wait a minute, there's that one good thing with Jupiter right now that you're missing because you're, you're complicating it that you're adding all these things in and now you're not doing anything, you stop overthinking it. And so with Tarot, it is always best to be simple. And what I like to do is I shuffled and I'm shuffling because I'm making my connection. And then I will put the deck facedown, I always cut it into three piles. That's my ritual. And then it depends on how I feel, I might pick one off the top, or spread it out and pick one randomly. Pick one just one is all you need. It will give you have a lot of information. And if you use that to start out your day instead of 15 you're going to have information that's succinct. That's to the point is going to be way more useful than scattering. Again, your energy between 15 different cars now there are readings I use with 10 or 13 cards, but we still always want to get down to the essence of the card and not overcomplicate it. It's like putting on too many accessories. If you put on too many accessories, it doesn't look good. I mean, this is Libra rising talk and we want to simplify because otherwise it's it's it's your eye doesn't know where to go. And that's the same with Tarot. So simplify it, you're going to get a much more direct answer.

L Leslie Tagorda 39:36
That's perfect. So Brenda, simplify things and trust your gut and you know, sometimes there's always that one card that like falls out of the pile like oh gosh, I guess this is the one

T Theresa Reed 39:47
yes to try to get your attention. We call the we call that a jumper.

L Leslie Tagorda 39:51
I always get the jumpers because I'm like no wait, I want this one. Yeah, no, no

T Theresa Reed 39:56
The cards are saying this is the one you need to look at Leslie Leslie. Look at this.

L Leslie Tagorda 40:01
I have one more question from another use a listener. Grace Van Cleave wants to know more about Tarot and astrology and how they work together in your process, that she mentioned that she had a tarot reading with you this fall. And so far it has been spot on.

T Theresa Reed 40:18
Oh, thank you Grace, I'm so happy that you are here listening in on with us. So for me, Taro is always the main tool when I do a client reading, because I use astrology very differently. And so when I do a reading for a client, we all sit down and we start by looking at Okay, well, what is the general energy of the year ahead? So I'm an intuitive reader. And I will always start off with that. And then I'll look at the astrology just to see if there's a major aspect happening, like, what's Jupiter doing? What's Saturn doing, especially those two planets for kind of like an overview of the year, and then we'll do questions, we'll toss cards, we'll look at that. So that's why I combined it. Now when I'm doing business readings. It's very astrology heavy, because that's different. It's like I do the astrophys digest, where that is like a weekly digest that really distills down what's happening with the lunar cycles and every day, but I also do the entrepreneur cast, which

is, let's look at the bigger picture, the big themes here. And let's look at what timing you need to really be figuring out to do the best to work with the best the energy is going to give to you. And I do some Tarot with that, too, but that's very astrology heavy. And when I do astrology, or Tarot for business, it's a very different part of my brain that I'm using. Because when I'm doing regular tarot readings, it's very intuitive. It's very much it's like, oh, the psychic thing, ooh, I had a musical Oracle. It's different. Business, astrology and business Tarot, it's very different interpretations. It's a very different side of my brain. And this is where the Gemini thing really shows in me, there's two very, very different sides of my brain. There's also a third one, because I also like to do political astrology is my passion. I love do it. Oh, my God, I love doing it. But I don't like to put it out there in the open because people get so weird about it. So I do it over on Patreon. And I've done it you know, for years, when people have questions about the politics and who's running for president, and yada, yada, yada. And, by the way, it's very remarkable for picking presidential things. I've been right. Really scary, right. And I just find it all really fascinating. But it's again, it's very different sides of the brain. So it depends on what kind of reading people get with me, if you're getting a regular reading. It's also terrible. If we're talking business, it is mostly astrology. We're very different brains.

L

Leslie Tagorda 42:38

That is so exciting. I know I get your astrophys digest, I absolutely love it. I look forward to it every week. And I'm gonna have to explore the entrepreneur cast, because I just love like everybody's astrology, I just love how everybody puts their own spin on it. Because there's one way to do it, you

T

Theresa Reed 42:57

know, everybody's got a different perspective. And I read all kinds of astrology books, I read all kinds of astrology columns, I'm always checking out and even in my book on astrology, for real life, I give a huge selection of recommended reading. Because I think if you're going to be a good astrologer, or a tarot reader, for that matter, you need to get all perspectives. I take classes all the time. I want other people's perspectives. I want to know how they think it doesn't mean I'm going to say, Well, now I'm going to read just like, you know, Leslie Tagorda. But I want to get that perspective. So I'm just like, Oh, yeah, I never thought about that. Duh. Or that's interesting. Or Oh my god, how can I work with this? Or Well, that's interesting, but maybe it's not my thing. Yeah. I think that that's very important. If you want to be a well rounded, tarot reader, or astrologer or person who just likes using these, these tools, read all the books, take the classes, keep learning, and don't assume there's one way to look at it because there really isn't. I mean, when I look at, for example, like someone like Chris Brennan, who is Hellenistic astrology. Yeah. Do you have

this guy? This kind of really makes me think. Yeah,

L Leslie Tagorda 44:03

wow. It's like wise beyond his years. Like, he's just he's so young, and he's so like, he blows me away.

T Theresa Reed 44:11

And then I would get like the people's Oracle, Dana Lynn knuckles, who does sidereal astrology blows me away. I actually had to do a chart to explain sidereal She goes, Well, severe your torso. I'm not a tourist. I wanted to fight it all the way that it was so fascinating. And it gave me just such a different perspective. Or like, I love chatting, Nicholas, who does whole sign houses, I don't do whole sign. And I'm like, that doesn't work. And what, wait a minute. Maybe I need to think about this. I love that I want. I don't want to think I know at all. I never want to think my way is the only way. My way is one way but there are a million ways and so many beautiful perspectives. I encourage everybody, don't just get with one person. Check out as many people as you can. You are going to get a beautiful, beautiful perspective. Yes.

L Leslie Tagorda 44:59

Oh my gosh, this has been so much fun. Teresa, I feel like we could just talk forever. I have your chart in front of me. What might I do a little mini reading for you from my perspective.

T Theresa Reed 45:14

I would love it. You know, I love Love, love that.

L Leslie Tagorda 45:18

Alright, so what is so striking to me is that Gemini pile up for you in the eighth house with your sun conjunct, like just by like five minutes? theory. So Amy kozy. me. And so just like shining bright, shining bright, and I'm curious, like how does Mercury Retrograde sea probably affect you? Like really, on a fundamental level?

Theresa Reed 45:42

Like, oh my god, oh my god, if I had a million middle fingers from Mercury Retrograde, they would be up all at once Mercury Retrograde. And here's the thing with it. It's kind of like, I call it PMS, pre mercury shit. It's before the retrograde actually kicks in, I have all kinds of bullshit happening. As soon as it comes kicks in and better. I'm like, okay, okay. But I mean, I still end up always getting some impact by it.

Leslie Tagorda 46:07

Yeah, cuz your Mercury is moving at top speed. And so for mercury to go backwards, it's like you're out of control, almost like I can see that impacting you on a, on a really fundamental level, but with our sun sign, just like what you do and your expertise and your authority, and being able to express what you do to me as the sun sign. So it's like, Yes, your creative brilliance, and communicating and writing, and your north node all there and Jupiter expanding it all, like all in the eighth house. So, of course, like you are here to share, like share all of this knowledge. And like what you were mentioning earlier, that's sharing that wide swath of knowledge. Even though you can go deep into the eighth house, that's not really you're here to share wider knowledge about everything involving magic and old fashioned word occult that we don't really use anymore, but all those eighth house energies, but we already talked about it, how you have your T square to Saturn, and all of that energy in, in Virgo in your 11th house. And to me, it's like when I was asking earlier about your direction of when do you feel most committed but like for you, all of your friends, you're committing to your friends committing to your communities, committing to your networks, you have all of this, this creative juice that really helps you do and what you do so amazingly well then with your moon sign and Scorpio on your second house CUSP. To me this is super fascinating because when I look at our moon sign like of course we have Mars and Venus that you know operate are on our desires and our wants but at an emotional at a core level our moon sign and really shows us how we desire to be seen and how we want to be recognized and what success is like what we need to feel secure to make those those kinds of choices that risks in our business. And sometimes I think nowadays it's changing that people are looking more into their moon sign about like how do they want to feel when their business and so with your moon in Scorpio to me really value transformation, and that this transformation is this long, lifelong thing. So this thirst for knowledge isn't just to understand it's to transform. Uh huh, right and you want to be seen as that kind of mysterious person yet sharing that mystery right? There's this mystique about you and that's also the gift that you bring to people you help them transform it like just this deep emotional level using Spirit because you know, you have Neptune really close by Haha, and then your Libra rising leading with beauty. And you still have a ton of Scorpio in your first house. So the Libra isn't like your, I think

even use these words. And another client of mine uses the same words that no fluffy bunny stuff.

T

Theresa Reed 49:12

I'm like, I'm like I'm not Libra light. I'm more like Scorpio heavy. Yeah, and I you know, it's funny. I usually will always read Scorpio horoscopes instead of Libra because I always identify so much more with that I'm a late Libra rising. Yeah, and that Scorpio stuff is strong and I'm full eighth house so I really identify with them.

L

Leslie Tagorda 49:32

Well then you also have the 12th house you have in placidus you have the intercepted 12th house with Libra. So that's kind of that hidden, the hidden not hidden beauty, but that hidden softness. You're like no, that's not exactly how I'm gonna lead but still with that kind of Peaceful Warrior like hey, I'm here to take a stab. And your leadership is directed in the ninth house intercepted cancer Venus in cancer, but it's like you're really helping change people's belief system. And like changing? Oh, yeah. What do you what do you think about your capital with your cancer, your Venus, cancer intercepted there. How do you access here? Well, first

T

Theresa Reed 50:11

of all, having Capricorn intercepted in my third house, I always found that really fascinating because you know, on the outside was Sagittarius sitting on that CUSP. It means a very philosophical and jovial and optimistic. But I do have a head for business. I'm very business oriented in the way I think. And so business, I took a business like a fish to water. But when I look at the cancer, Venus and cancer intercepted in the ninth house, I see that two ways. For one, I think, you know, I'm very much a homebody. Even though the ninth house is always about being out in the world, I love my home, I love my family. That's what gives me my route. That is what helps me to remain centered. So that's very important to me. But also, there's that love of learning is that love of learning, and also the love of again, taking that knowledge and sharing it. And really taking a motherly approach to people when I'm sharing that information. And that's one thing that I do very well as always, when I read for people, or when I teach them, I want to be nurturing them, I never want anyone to walk away feeling bad, or like they can't get it. I always want to nurture their, their knowledge, their wisdom. And so I really see that as my maternal energy comes through in that way. Yes. Oh, my gosh,

Leslie Tagorda 51:26

so you're speaking through exactly your archetype up there. Because like with your, with your Libra with your, the ruler of Libra, in the ninth house intercepted with Gemini, it's like you're nurturing their minds?

Theresa Reed 51:37

Yes, absolutely. And making them feel, I mean, think about I, I often see repair, and my parents were so guilty of this. And it's also from back in the day, back in the day, you know, parents were kind of hardcore. My parents were older, and there was all this, this negative feedback. And I just don't think that's helpful to young people or to anybody. Isn't it much better to say, Okay, well, this topic is a little bit rough for you. Let's work with this. Let's, let's find a way to make it work for you. You know, I used to do tutoring for teenagers back in the day, I also taught CCD. And when I was in grade school, I also tutored children in the special needs classes. And one of the things I've been very good at with children is really getting them to see, you can do this. I'll never forget, I had this girl who was going to fail eighth grade, because she couldn't do fractions. And everyone made her feel like she was dumb. And I remember sitting with this kid, and I was an adult at that time, I said, Okay, what why do you have a problem with this? And I just can't get it. I'm not good at math. I'm like, Well, what are you good at? She was well, I'd love to heavy metal music. And she had this big wide knowledge of poison and, you know, Iron Man that said, Okay, well, we're gonna take fractions, and we're gonna apply to heavy metal. And that's what we did. And this kid, a stir test, and they let her pass eighth grade, because I had to find a way to work with her and to nurture her and to get her excited. And that's what we have to remember when we are teachers. You want it it's never about you teaching how smart you are, and the knowledge you have, who cares about that, get out of that. It is about making. It's about reaching people where they are, and nurturing their intellectual gifts, and helping them to find their intellectual gifts in a way that makes sense for them. And that's very nerve motherly.

Leslie Tagorda 53:20

That's so beautiful. It's so mother. It's like, your nurturing side gets unlocked when you talk about like sharing information, sharing knowledge, opening your mind. And also because, you know, as a self proclaimed, as you said, you want to stay home, your home body. It's like you explore through your mind, right? Like, that's just so amazing. Ah,

Theresa Reed 53:40

I just, yeah, it's important to do that. And it's also even with the community that I build. It's always about nurturing. everybody's like, Look, you're all welcome here provided you're not mean. Yeah.

L

Leslie Tagorda 53:53

Just behave right. Oh, my gosh, this was so much fun to reset. Is there anything else that you'd like to share with us and my listeners before we close up here?

T

Theresa Reed 54:07

Well, if they want to find me, they can find me. At the tarot lady calm. That's my website. But every morning I am doing free astrological transits and pulling tarot cards for every sign of the zodiac over on Instagram. It happens around nine or 10 o'clock, central time. I'm there every day. So if you are looking for a little guidance to your day, I'm there every day because as we've established, unreliable,

L

Leslie Tagorda 54:33

yes. Oh my gosh, Teresa is there every day. I see her notifications every day and get very excited. So I will have all of Teresa's links on the show notes but head on over to the Tarot, the Tarot lady.com and find her on Instagram. Just so wonderful. Thank you, Teresa for sharing your brilliance and wisdom with us today.

T

Theresa Reed 54:56

Thank you Leslie. This was so much fun.

L

Leslie Tagorda 54:59

Listen Interview amazing. If you want to find out more about Theresa head over to the show notes on the savvy luminary.com and you can find her links to her website, the Tarot lady.com. And you can follow her on all of her social media channels on Patreon, Twitter, Instagram and Facebook all at the Tarot lady. I'll have links to her books such as Tarot no questions asked, Mastering the Art of intuitive reading, and my favorite astrology for real life a workbook for beginners a no BS guide for the Astro curious oh my gosh, I hope you love her as much as I do. Okie dokie, let's get into the astrology of the week of February 21 through the 27th 21. So I hope you're as excited as I am that that Mercury

Retrograde is over food. That was a doozy for me probably because of all of my Aquarian energies, I could not think straight to save my life. We have kind of a quiet week, you know, March is turning out to be a nice quiet month. And I think you know, we all need a break. I think if we just got into astrology that, you know, 2020 was just this crazy year where there was just like, epic transit after epic transit. So, you know, kind of coming down from that things just seem really quiet and like, Oh my gosh, why are things so quiet? What's wrong? But you know what, this is how it normally is. So let's revel in, you know, having some space so that we can finally integrate all of the crazy things that have gone on over the last 12 months. All right. So on February 24. That's right in the midweek on Wednesday. We have Mars training Pluto. Right. So the theme is empowered patience and purser ference, right what inner power is now emerging in supportive drive. Okay, so Mars is our energy to motivate and initiate and take action. And Pluto is our energy to, you know, to transform and dive into the depths and bring things into light. Both Mars and Pluto are rulers of Scorpio and today they are in a harmonious Trine with Mars in the earth sign of Taurus, the peace loving earth sign of Taurus and Pluto still in Capricorn. So a few days before and after this Wednesday, the 24th. We are all feeling this swell of energy and drive. And quite honestly, it's been quite a while since I've felt this drive and maybe you have felt the same way. So it's a great time to harness this power to do the things in your business that seemed insurmountable. Right, that first step in your 1000 mile journey. Use this energy to dig into your priorities, the things that will really move your business and brand in the direction you want it to go. One thing to note that his emotions might run high too, especially today. Be aware and channel your physical, emotional and spiritual energy into your priorities and keep it focused on your goals. dedication to your ideals can have a lasting impact now. And the next day is February 25, at exactly 5:11am Pacific and at 11am. Eastern Venus enters Pisces. The theme here is connect through spiritual and compassionate values with what heart centered values can you connect and create with this season, while Venus is in Pisces. So Venus in business represents our values, what we value how we add value, and also the connection to the right people and the right resources so that we can do our jobs right? So this month while Venus is in Pisces until March 21 It's a great few weeks to use spiritual tools to call in your right people and your right resources right. And to use your intuition because Venus in Pisces to come up with your revenue aims in your business right because we got to talk about money when Venus is involved right. Now when Venus is in Pisces, she loves Being in Pisces, right? So we get to use her and maximize her energy because she's really in her, she's in her own, she's in her flow to magnetize and add value, right? While she travels through this beautiful compassionate sign of Pisces. She's going to stay here again until March 21. And during this time, it's using our soft powers of empathy, love, interconnectedness, imagination and fantasy, to allow us to call in all of the right people and all of the right resources. Right. Now, don't mistake Venus and Pisces for being soft or weak. softness is her power, her ability to stretch to be malleable and to bring in information from the divine to make

manifest in our physical world. Right. So let's bring in all of that value that we desire through Venus on February 27, or 28th. Depending on where you live in the world. We have our full moon in Virgo, the Pisces Sun is illuminating the Virgo moon. And so today, we are here to celebrate our effectiveness and wholeness. It's time to celebrate our wins around creating organization and efficiency in our business, that's Fargo, and to look at how far we've come. What wins Will you celebrate around the health and wholeness of your life in business, right, because we are only as effective as our health and our wholeness of our daily routines. That's all of the Virgo ness in one right. And also looking at like what's what do we need to let go of that prevents us from finding that wholeness in our business. The Virgo Full Moon is being illuminated by the creative vibrancy of the beautiful Pisces sun. Today we celebrate and we release we celebrate to offer gratitude and recognize how we've already brought in wholeness and health and the Virgo ideals into our business, right organization effectiveness health service to others, and we make space to receive by releasing what prevents us from bringing in more wholeness. With Virgo and Pisces we seek to balance service to others with service to ourselves. Work with rest organization with flow, wholeness with oneness health with flow and effort with ease that beautiful polarity between Virgo and Pisces. Today, I urge you to let go of analysis paralysis, the need to be perfect, and the need to understand everything. In turn as you let these things go. You will allow room for trust in your divine your highest self and interconnectedness with one and all and of course the most important, the compassion for yourself. No, that's all we have for the astrology for this week. Again, it's a quiet week. March is also going to be lovely and quiet. So we're going to have the time to bring in ease and flow and finally start integrating all the lessons that we've learned over the last 12 months.
